

Compact single-stage vacuum generator mod. EVM2SC

Its compact size and low weight make it particularly suitable for plants with minimum overall dimensions, while keeping the same performances. Used particularly for suction from one or more working areas, attached directly to one or more suction cups.

Art. EVM2SC

Technical details	Unit of measurement	EVM2SC
Working pressure	Bar	2.5 - 3.5
Max vacuum	-kPa	85.2
Suction cup attachment (U)		1/4" gas
Air compressed attachment (P)		1/4" gas
Exhaust air attachment (R)		1/4" gas
Mounting position		makes no difference
Air consumption at 3 bar	NI/min	60
Vacuum flow at 3.5 bar	NI/min	35
Weight	kg	0.079
